MARINE AMPLIFIERS				
MAR465	MARINE AMPLIFIER - 4 X 65 watts	600 watts	N/A	25Hz-22kHz
MAR1500	MARINE AMPLIFIER - 1 X 500 watts	750 watts	N/A	25Hz-130kHz
MARINE COAXIAL				
MAC6502W	MARINE 2-WAY COAXIAL - 6.5" w/ Poly woofer, aluminum tweeter (white enclosure)	100 watts	93 dB	85Hz-20kHz
MAC6502B	MARINE 2-WAY COAXIAL - 6.5" w/ Poly woofer, aluminum tweeter (black enclosure)	100 watts	93 dB	85Hz-20kHz
MAC8002W	MARINE 2-WAY COAXIAL - 8" w/ Poly woofer, aluminum tweeter (white enclosure)	150 watts	94 dB	55Hz-20kHz
MAC8002B	MARINE 2-WAY COAXIAL - 8" w/ Poly woofer, aluminum tweeter (black enclosure)	150 watts	94 dB	55Hz-20kHz
MAC6903W	MARINE 3-WAY COAXIAL - 6"x9" w/ Poly woofer, aluminum tweeter (white enclosure)	150 watts	94 dB	55Hz-20kHz
MAC6903B	MARINE 3-WAY COAXIAL - 6"x9" w/ Poly woofer, aluminum tweeter (black enclosure)	150 watts	94 dB	55Hz-20kHz
MARINE WOOFERS				
MAW8004	8" MARINE COMPONENT WOOFER - 4 ohm w/ Poly cone, rubber surround, 2" VC. CHIL compatible	300 watts	87 dB	20Hz-250kHz
MAW1004	10" MARINE COMPONENT WOOFER - 4 ohm w/ Poly cone, rubber surround, 2" VC. CHIL compat	450 watts	89 dB	20Hz-250kHz
MARINE TUBES				
SCUBA8	MARINE 8" BAZOOKA TUBE SUBWOOFER w/ SUBA tank cosmetic	150 watts	102 dB	35Hz-250kHz
MBT8014	MARINE 8" BAZOOKA TUBE SUBWOOFER	150 watts	102 dB	35Hz-250kHz
MBT1014	MARINE 10" BAZOOKA TUBE SUBWOOFER	250 watts	104 dB	35Hz-250kHz
MBTA8100, MTRA10100	MARINE 8" or 10" amplified BAZOOKA TUBE SUBWOOFER (100 watt)	100 watts	N/A	35Hz-85kHz
MBTA8200, MBTA10200	MARINE 8" or 10" MOSFET amplified BAZOOKA TUBE SUBWOOFER (200 watt)	150 watts	N/A	35Hz-250kHz
MARINE TUBBIES				
MT6502BS	BLACK 6" TUBBIES w/ stainless steel hardware	100 watts	93 dB	85Hz-20kHz
MT6502WS	WHITE 6" TUBBIES w/ stainless steel hardware	100 watts	93 dB	85Hz-20kHz
MT6552BS	BLACK 6" DOUBLE ENDED TUBBIES w/ 5.25" coaxial	150 watts	93 dB	85Hz-20kHz
MT6552WS	WHITE 6" DOUBLE ENDED TUBBIES w/ 5.25" coaxial	150 watts	93 dB	85Hz-20kHz
MT8002BS	BLACK 8" TUBBIES w/ stainless steel hardware	150 watts	94 dB	55Hz-20kHz
MT8002WS	WHITE 8" TUBBIES w/ stainless steel hardware	150 watts	94 dB	55Hz-20kHz
MT8252BS	BLACK 8" DOUBLE ENDED TUBBIE w/ 5.25" coaxial	225 watts	94 dB	55Hz-20kHz
MT8252WS	WHITE 8" DOUBLE ENDED TUBBIE w/ 5.25" coaxial	225 watts	94 dB	55Hz-20kHz
PRE AMP				
MPA1000	PRE AMP MICROPHONE PA SYSTEM	N/A	N/A	N/A

Outdoor

COMPRESSION HORN				
MT6502CHB	BLACK 6" COMPRESSION HORN TUBBIES	150 watts	103 dB	85Hz-20kHz
MT6502CHW	WHITE 6" COMPRESSION HORN TUBBIES	150 watts	103 dB	85Hz-20kHz
MT8002CHB	BLACK 8" COMPRESSION HORN TUBBIES	200 watts	104 dB	85Hz-20kHz
MT8002CHW	WHITE 8" COMPRESSION HORN TUBBIES	200 watts	104 dB	85Hz-20kHz
CAMO TUBBIES				
MT6502C	6" Camouflage tubbie speaker	100 watts	93 dB	85Hz-20kHz
MT8002C	8" Camouflage tubbie speaker	150 watts	94 dB	85Hz-20kHz
CLAMPS				
MT-CL250-SS	ROUND CLAMP - Universal stainless steel mounting clamp w/ inserts for towers 1 7/8" to 2 1/2"	N/A	N/A	N/A
MT-CLMAL-SS	FLAT CLAMP - Stainless steel surface / Malibu mounting bracket	N/A	N/A	N/A

PA Pre Amp

The MPA-1000 adds two great features to any Marine Audio Application: MP3 input and Microphone communication with the wakeboard rider or skier behind you, with boats nearby, or with people on the dock. This slick setup connects to any amplified audio system, and adds a microphone that automatically sends your voice out over the audio system. You can listen to any portable audio device using your boat's current audio system. Just plug into the input jack on the front of the control unit.

Features:

1. Four channel music input (FL/FR/RL/RR).
2. 3.5mm auxillary MP3 mini jack input.
3. Auto input select when auxillary input is detected.
4. Microphone voice input.
5. Mute or mix music with voice over functionality.
6. Independent music volume controls.
7. Independent voice volume controls.
8. Auto memorize music and voice volume settings when status is changed.
9. Available in Black (MPA1000B) and White (MPA1000W).

Clamps

Our new Stainless Steel mounting system makes it easy for you to maximize your sound on land or at sea. Bazooka's Marine Tubbie Clamps are universally designed to fit towers with widths of 1 7/8" up to 2 1/2", while our Surface Mount Tubbie Clamps are simple to mount on any flat surface. All Bazooka mounting hardware is polished to a mirror finish, then coated in a marine grade plating impervious to even the harshest salt water environment.

Marine Amplifiers

Bazooka® Marine Amplifiers offer flexibility not common to Marine customers. With an infinitely configurable 4-channel amplifier and a 2ohm stable 500-watt subwoofer amplifier, these amps will help make waves from the marina to the ocean.

EXPERIENCE MORE!

Marine & Outdoor

Marine Bass Tubes

The Bazooka® Marine Bass Tubes bring the superior performance of Bazooka® products to the water. Some of the features critical to the performance and reliability of the Bazooka® Marine Bass Tube Subwoofers in the harsh marine environment are plated speaker terminals, stainless steel hardware, waterproof woofer design, UV resistant enclosure and a nylon composite mounting system for the tubes.

Marine Woofers

Bazooka Marine Component Subwoofers can create waves on their own! These high performance marine grade woofers are available in 8" and 10" sizes and are ready to "Rock the Boat" with features like UV treated poly woofer cones, rubber surrounds, Progressive flat spider, Kapton VC former, powder coated back plate with side venting, nickel plated connectors, and a monster motor structure with a bumped backplate and rear venting.

Marine Satellites

The Marine Satellites are available in 6", 8", and 6"x9" sizes and will work with all marine audio systems. These satellites feature UV resistant white grills, composite speaker baskets, polyurethane rubber woofer surrounds, poly-mica woofer cones, and aluminum dome tweeters with 12db per octave crossovers.

Bazooka is setting new standards with the industry's first true marine speaker designed outside of the traditional "it's gotta be white to be marine" mentality. The black and cosmetic aluminum marine satellite speakers offer all of the water resistant features and build quality of their traditional white siblings with a hot cosmetic for use on today's outrageous ski and offshore powerboats.

Outdoor Tubbies

The newest member of our Tubbie family, our Outdoor Tubbies offer all the advantages of our Marine Tubbies. Available in a sleek camouflage pattern, these tubbies will blend in with your hunting vehicle. They can be securely mounted to your ATV with our mounting clamps that attach easily to the roll bar. When you use our new Outdoor Tubbies, they might not be able to see you, but you can bet they'll hear you!

Marine & Horn Tubbies

The newest member of the marine product family combines all aspects of Bazooka product design to create what is arguably the best wakeboard tower speaker package available at any price. These wakeboard tower speakers (affectionately known as "tubbies") offer two very important benefits over other similar products:

1. They are first and foremost designed by a speaker enclosure manufacturer with over 20 years of enclosure design experience.
2. They utilize true marine grade speakers designed for use in the harsh marine environment.

New from Bazooka are our Compression Horn tubbie speakers. These new tubbies are available in both 6" and 8" versions and feature compression horn technology that literally projects the sound across the water. At 3 times louder than our standard tubbies, these compression horn tubbies make the hard core boarders ride more intense.

Marine SCUBA8

The original and patented NOS style subwoofer has a new relative. The SCUBA8 looks like a mild mannered air tank, but in reality is a camouflaged subwoofer that will take your passengers' breath away in your boat when they hear it!
